**LoginWindow output:**

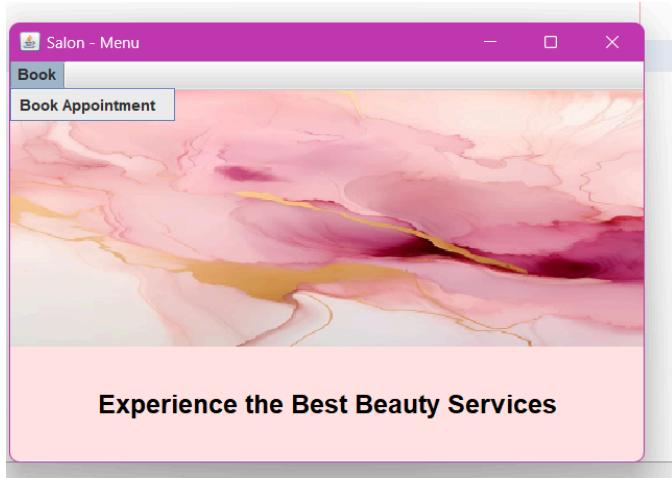

The first screenshot shows the initial state of the login window titled "salon - Login". It contains fields for "Email" and "Password", and two large red buttons labeled "Login" and "Sign Up". The second screenshot shows the window after a successful login attempt, displaying a message box with the text "Login successful!" and an "OK" button.

**SignupWindow output:**

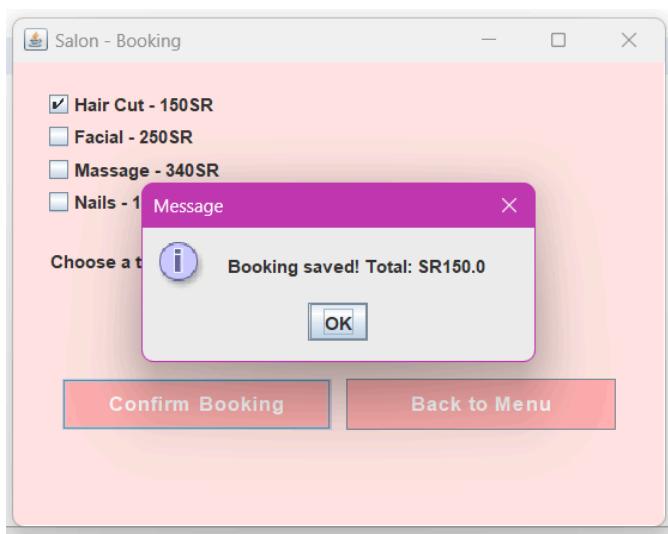

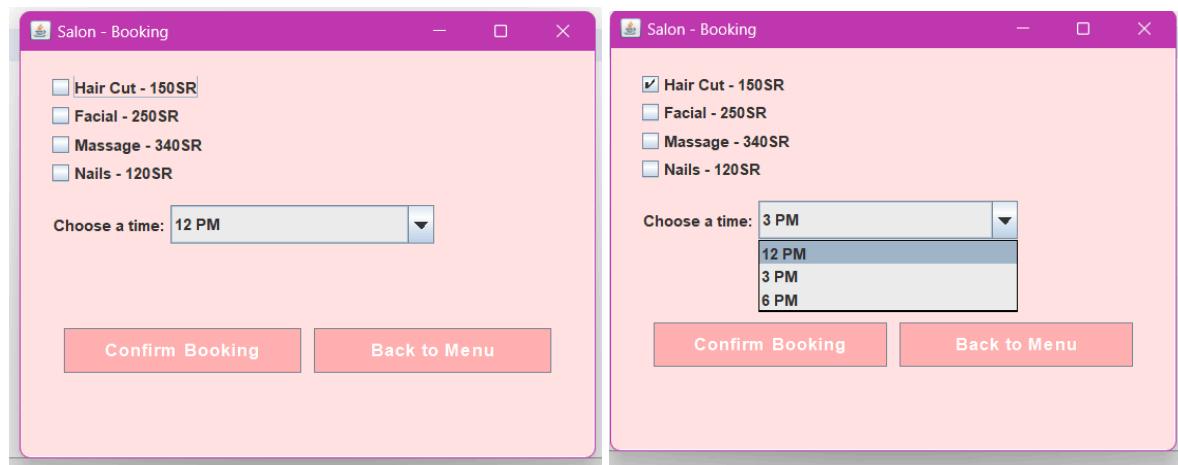

The first screenshot shows the initial state of the sign-up window titled "salon - Sign Up". It contains fields for "Email" and "Password", and a single large red button labeled "Sign Up". The second screenshot shows the window after a successful registration attempt, displaying a message box with the text "Registration successful!" and an "OK" button.
